

The MECHANICAL Horse

HOW THE
BICYCLE
RESHAPED
AMERICAN
LIFE

MARGARET GUROFF

"A PROVOCATIVE, IN-DEPTH ANALYSIS OF THE TWO-WHEELER'S SHIFTING INFLUENCE ON AMERICAN SOCIETY. HIGHLY RECOMMENDED." —DAVID HERLIHY, AUTHOR OF *BICYCLE: THE HISTORY*

THE MECHANICAL HORSE

Discovering America
Mark Crispin Miller, Series Editor

This series begins with a startling premise—that even now, more than two hundred years since its founding, America remains a largely undiscovered country with much of its amazing story yet to be told. In these books, some of America's foremost historians and cultural critics bring to light episodes in our nation's history that have never been explored. They offer fresh takes on events and people we thought we knew well and draw unexpected connections that deepen our understanding of our national character.
